Cedar City, Utah 84721

Subject: Approval of Amendment of Notice of Intention to Commence Small Mining Operations, Utah Division of Wildlife Resources, Kingston Canyon Rock Mine, S/031/009, Piute County, Utah

Dear Mr. Beckstrom:

The Division of Oil, Gas and Mining finds your amended Notice of Intention to Commence Small Mining Operations (NOI) complete. You are now permitted to conduct small mining activities as outlined in the amended NOI, provided you have approval from all other appropriate agencies. Enclosed please find a copy of the approved amendment to your NOI. The copy has been stamped approved.

Your map with an aerial photo background shows your road access to your current disturbances. Please be reminded that this road will need to be reclaimed (ripped and seeded) back to the main highway.

You will be subject to the same operations and reclamation standards as with the original approval, including the requirements to salvage soil and to report any archaeological or historical items. The annual report and permit fee are due January 31.

The Division's web page at <http://ogm.utah.gov> under the Minerals Program has a link to the rules under which you are expected to operate and to other information to assist you in complying with program requirements. Thank you for your cooperation. In reply, please refer to file number S/031/0009. If you have questions or concerns regarding this letter, please contact me at 801-538-5261 or Peter Brinton at 801-538-5258.

Sincerely,

Paul B. Baker

Minerals Program Manager
